Ighoanet school management software (ISMS) is a tool that manage the educational and administrative tasks without any hassle.

It helps schools to digitally manage and monitor daily school activities on a single platform.

It helps schools to save and improve enrollment processing and help to bridge the communication gap between learners/parents and teachers/admins. together.

ISMS helps schools to manage her accounting, provides an option to pay the school fee online with ease and enable student to apply for admission online.

It is used to teach students in a virtual environment where study materials are been given as softcopies to prepare them toward exercises, quizzes and examination online and to measure the knowledge of the participating students on a given topic.

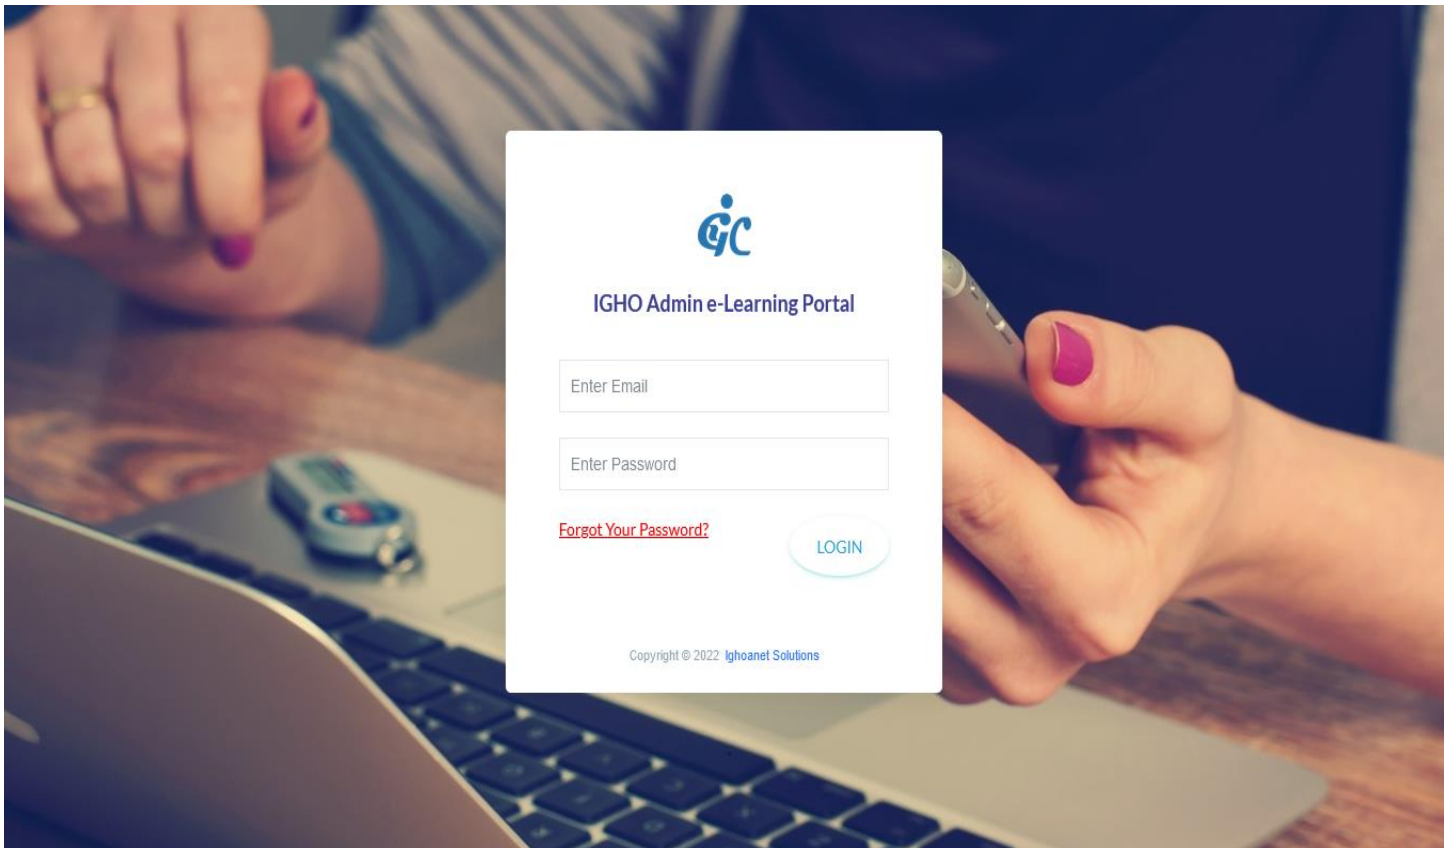

The embedded online CBT prepares students ahead of any form of online examinations like JAMB CBT in the nearest future.

It is used to generate student's ID card, staff's ID card, certificate/testimonial, report sheets/report cards and broadsheets for all students.

Instruction on Creating Exam

Before you add an Examination, firstly, add your subject if you haven't via Subject Management and also make sure that the class to which the exam is to be given has already been added via Class Management. Secondly, the passage text editor is meant for Language Department Teachers who have Comprehension, Lexis and Structure, e.t.c to write. So, in case of other subjects, **IGNORE IT** or write **NIL** in the text editor.
